

# Underwater Photographer

## Underwater Photographer

No photo experience required! That's what the program is for - showing you how to take award winning pictures underwater. You'll need to be at least a PADI Open Water Diver (PADI Junior Open Water Diver or equivalent) and at least 12 years old to experience the program.

During your PADI Underwater Photographer program you'll go on two open water dives, which may be conducted in one day. This is where you'll put in to practice the tips and techniques you learned from your instructor and the PADI Underwater Photographer Manual and video.

Your elective Underwater Photography dive conducted during the Adventures In Diving program may count toward this specialty and visa versa at the discretion of your PADI Instructor.

Capture your underwater adventures on film so you can share the thrill of diving with friends and family. Contact Forward Diving and tell them you want to dive today - with your camera and purchase the Underwater Photographer Crew-Pak!
